

The Organic Center Resources

- [The Organic Center Info Sheet](#)
- [The Organic Center Project Briefing](#)- what research we are involved in
- [Our Work website](#)- houses microsites for each project
- [Recipes](#)- the most popular consumer communication tool
- [Science Summaries](#)- a virtual library that houses summaries of peer-reviewed scientific papers, written in a language tailored for the general public
- FFAR-Organic Center funding program:
 - [Training for Agriculture Professionals Prize](#)
 - [Organic Research Program](#)
- [Resource Library](#): Published Reports and Published Science Companion Documents (consumer facing)
- Organic Confluences, “[Reducing Plastic Along the Entire Organic Supply Chain](#)” May 9-10, Washington DC.

Services The Organic Center can provide (dependent on sufficient capacity)

- Post important research results or program updates through our social media channels
- Communications partners for large grant proposals
- Review services for grant programs and manuscripts
- Build connections with other organic researchers, farmers, and industry members for collaboration
